VW CAMPER SALES • SERVICING • RESTORATION

Specification Sheet

1978 • 4-Berth Devon Moonraker

What we have for sale here is a very nice piece of history. In the 12 years that we've been involved in the VW camper industry, we have only ever had one other right hand drive, 4-berth Moonraker for sale. This one is a real beast! Not only is the paintwork in beautiful condition (top and bottom) but the interior is also in a good and original condition - this is very rare. Also, the fact that these campers were only in production for 12 months makes them extremely hard to come by, and they're real head-turners.

Ok, so what's inside? Well the interior consists of a 2-ring gas burner, sink, on-board water tank and new fridge, a ¾ rock-and-roll bed, original

upholstery and rear seatbelts. It also has an overhead locker, so plenty of storage space, a pop-up table that stores away neatly underneath and a double buddy seat. Also included is a CD player with a 4-way speaker system and an iPod inlet.

The double bed up in the pop-top roof is 4ft x 6ft in size and can sleep two adults so that makes this a four adult sleeper, not the usual two adult and two children combo you get in most other campers.

As we mentioned, the paintwork is in very good condition, the images just don't do it justice, so come down and see for yourself, you won't be disappointed.
