## 1979 Westfalia Deluxe

Yet another good find by VW Down Under. This 1979 Westfalia Deluxe is carrying most of its original paint, which is in a nice clean condition. The underneath of this camper is very solid, in fact, it's never been welded and doesn't need any either, not bad far a van that's over 30 years old.

The recently fitted recon engine pulls like a train with its twin carbs. It's just been fully serviced and rolling-road tuned to give maximum performance. The interior is nice and clean, it has a 3/4 rock 'n' roll bed, rear seatbelts, cooker, sink, fridge, captain's chair and twin arm rests on each seat which makes it a comfortable pleasure to drive.

Overall, this is a nice, clean original camper - even the roof canvas is original. But if you wanted to spec this up even more we can give it a full repaint, new interior, power steering...the options are endless.

It comes with the usual 12 months MOT, 6 months tax and 3 months warranty on parts and labour, so call us to arrange a test drive.
