

Specification Sheet

Clara • 1975 RHD Australian Camper

Clara the camper was imported into the UK around 7 years ago where she then underwent a big overhaul.

This beauty drives great. The gear change, steering, brakes and electrics are all good. Around 3 years ago Clara come to us looking to have her body given a VW Down Under make-over, so we worked our usual magic giving her a top-to-bottom re-paint in the original colours with all new rubbers. The body was already in fantastic condition but now it's in amazing condition.

The engine is the original 2000i which has always been serviced by us, and runs superbly. She was rolling-road tuned last year and she doesn't miss a beat. Her pop-top roof is in great condition and the roof canvas is water tight. So with all of the hard work done, what Clara really needs is a new owner to put their own touch to her interior. This is something we can easily arrange so give us a call for a quote. She comes with 12 months MOT, 6 months tax and 3 months parts and labour warranty.
